Combination Certification A

EN ISO 14116, index 3

Flame resistant t-shirt in hi-vis. Made in a thinner inherent material, which makes it a little more airy to wear but with still good protective properties. Segmented transfer reflexes for increased comfort.

Certified under EN 1149-5, EN ISO 20471, EN ISO 14116.

Main material:

60% modacrylic, 39% cotton, 1% Antistatic fibre, single jersey, flame resistant, antistatic 210g/m²

Functionality:

Material with UV protection

Details:

External certification labels, Round neck

Reflex:

Segmented flame resistant transfer reflective tape
