

## 40206 Active Microfiber Lace

Work shoes designed like sneakers. Lightweight, durable and comfortable. Soft, flexible and water resistant microfiber upper with padding around the ankle for extra support and enhanced comfort. Extra slip resistant, flexible and shock-absorbing outsole. The combination of rubber in the outsole and the innovative, extra soft SoftStep foam in the midsole ensures a lightweight, flexible and hard-wearing shoe with excellent shock absorption. Bio-based PU insole for increased and long-lasting comfort. Metal-free and ESD-approved.
