

Mens's Trousers – Size Guide

UK Sizes to DK Sizes

For trousers, we start from the waist and convert to the nearest inch size. A size 50 will therefore correspond approximately to a size 34 inches.

We run different leg lengths on trousers, and convert to R (Regular), S (Short), L (Long) and XL (X-tra Long) depending on how the leg lengths fit best.

S fits approx. 30 inches in length

R fits approx. 32 inches in length

L fits approx. 34 inches in length (L is what we use for standard sizes in DK)

XL fits approx. 36 inches in length
