

Sizes

35-48

Certifications:

EN ISO 20345:2022 S7S FO SR HRO SC LG

A durable shoe with a membrane that keeps you dry in wet environments. This shoe is made of a smooth, high-quality, full-grain leather for your best comfort. With a textile nail penetration protection, aluminum toe cap and TPU reinforced toe and heel part, the shoe is made for tough conditions.

The insole, with anatomical support, is made of a smooth PU material, covered with a textile surface with good moisture absorption. The membrane will keep you dry throughout the day and the Freelock makes it easy to jump in and out of the shoes.

The shoe is well suited for craftsmen within construction, plumbers, electricians, and maintenance. Women's last in sizes 35-39.
