

## 102201 Orbit Textile BOA

Ultra lightweight safety shoe made from breathable textile which, together with the breathable lining, contributes to a comfortable climate inside the shoe. The slip-resistant TPU outsole ensures stable footing without leaving marks on indoor floors. NRGize Foam in the midsole, working together with the soft insole, provides intense energy return with every step you take. The durable ProNose makes the shoe practical for kneeling work. BOA® Fit System for easy adjustment and quick on and off. Lightweight aluminium toe cap and protective midsole of fibre material. Certified according to the EN ISO 20345:2022+A1:2024 standard. ESD approved and PVC-free.
